

OCB UPDATE FOR FLOOD AUTHORITY

NAT KALE

March 21, 2024

Skookumchuck Phase 3 Analysis

Evaluate Additional Alternatives

- Off-Channel Reservoir
- Direct Piping to Major Water Users

Investigate Red-Flags to Transporting More Fish Above the Reservoir

- Juvenile Salmonid Survival Through Reservoir/Dam
- Predators in Reservoir

Turbidity Monitoring in Reservoir

Continued Stakeholder Discussions

Summary Report

RCO Transition

RCO – OCB – WDFW Transition Team meeting every 2 weeks

April/May 2024: Transition plan

June 2025: Majority transition target date

December 2025: Target complete transition

RCO Transition

Grants are more flexible than contracts

RCO charges 1.5%; Ecology's overhead works differently

Still talking through access to EAGL

Long Term Strategy Work Elements

February

Flood Warning System
Erosion Management
Ag Viability

March

Floodplain Land Use
Low Flow Augmentation
Flood Authority
Transportation
Resiliency

April

FRE
Levee/Diversion/Conveyance
Other Hs
ASRP
Floodproof/Elevate/Acquire
Skookumchuck
Forest Practices
