

Chehalis River Basin

*Reducing Flood Damage and
Enhancing Aquatic Species Across The Basin*

June 30, 2014
Lewis County BOCC
10 a.m.

Today's Presentation . . .

- Provide update

- Encourage discussion

- Key messages . . .

1. Broad agreement -- For first time in a century there is broad agreement across the Basin on next steps to reduce flood damage and enhance salmon and aquatic species.

2. Basin-wide strategy -- An action-oriented, multi-phased Basin-wide strategy is needed to protect communities along the river and enhance aquatic species.

3. Collaboration is key -- WA State Legislature, Governor's Office, Governor's Chehalis Basin Work Group, Chehalis River Basin Flood Authority, and WA State Agencies all working together = A powerful force for action!

4. Fundamental principle -- Solving one's problems doesn't increase another's.

Action . . .

June 2014

“Governor’s Chehalis Basin Work Group”

- **Appointed by Gov. Gregoire (2012); Re-confirmed by Gov. Inslee (2013).**
- **Developed Next Steps Framework, \$28.2 capital budget request (2013-15).**
- **Looking Forward →** Tasked by Gov. Inslee to oversee implementation of 2013-15 budget, recommend next steps by mid-November 2014 for: Water retention; I-5; Other Basin improvements; Aquatic species enhancement.
- **Members are:**
 - ❑ David Burnett (Chairman Chehalis Tribe).
 - ❑ Karen Valenzuela (Thurston County Commissioner, Vice-Chair Flood Authority).
 - ❑ Vickie Raines (Mayor Cosmopolis, Chair Flood Authority).
 - ❑ J. Vander Stoep (Private Attorney, Pe Ell Alternate Flood Authority).
 - ❑ Jay Gordon (President Washington Dairy Federation and Chehalis Farmer).
 - ❑ Rob Duff (Governor’s Natural Resources and Environment Advisor).
 - ❑ Keith Phillips (Governor’s Climate and Energy Advisor).

“Chehalis River Basin Flood Authority”

- **Formed in 2008**

- **Formal body focused on:** (1) flood hazard mitigation throughout the Basin; and (2) decision-making that is

- ❑ informed by science.
- ❑ protective of Basin residents/communities.
- ❑ environmentally appropriate.

- **Basin jurisdictions represented**

- ▶ Grays Harbor County

- City of Aberdeen
- City of Cosmopolis
- City of Montesano
- City of Oakville

- ▶ Lewis County

- City of Centralia
- City of Chehalis
- City of Napavine
- Town of Pe Ell

- ▶ Thurston County

- Town of Bucoda

Background . . .

- 2007 Flood -- \$938M Basin-wide damage, \$300M lost economic activity (WA).

Background . . .

- 2007 Flood -- I-5 and Hwy 507 Interchange looking South.

City of Centralia and I-5
STEVE RINGMAN /
SEATTLE TIMES

June 2014

Background . . .

- 289,983 acre feet of measured water (12/03-08/2007).
- Equivalent to covering roadway between Chehalis and North of Kamloops with 1 foot of water 1-mile wide or covering . . .
 - 80% of Kitsap County.
 - 69% of Clark County.
 - 59% of Thurston County.

Background . . .

■ Ranked high flow events (1932 - 2012) . . .

- ❑ I-5 closed 1990, 1996, 2007, 2009
- ❑ Five largest events since 1986 -- *Frequent floods are getting worse and damage is increasing . . .*

Chehalis River Flow Rates near Grand Mound (cubic ft./sec.)

Background . . .

- Chehalis is the second largest river basin in the state, rich in natural resources . . .
- Salmon populations are 15-25% of historic levels.
- TMDL for the basin (<http://www.ecy.wa.gov/programs/wq/tmdl/ChehalisRvrTMDLSummary.html>).

WASHINGTON STATE DEPARTMENT OF
Natural Resources

Office of Financial Management

Better information. Better decisions. Better government.

June 2014

2. Hydraulic Understanding

- **Science-based model** -- To inform decision-makers on hydraulic effects of potential flood relief options (at basin-wide and localized scales).
- **108 miles** -- Mouth of Chehalis River upstream to Pe Ell (108 miles).

Draft Report - Chehalis River
Hydraulic Model Development Project

Prepared by:
WATERSHED Science & Engineering
and
WEST Consultants

Prepared for:
Chehalis River Basin Flood Authority

July 23, 2012

June 2014

2. Hydraulic Understanding

- **Example: Basin-wide effects analysis** (Watershed Science and Engineering; Chehalis Basin Flood Hazard Mitigation Alternatives Report analysis; 12/2012)

3. Large Capitol Projects

- **Technical team evaluating safety, feasibility of upper basin water retention structure** -- field visits, site and design considerations, world-wide research, etc.
 - Permanent reservoir with fish passage or Run-of-the-river without permanent reservoir.
 - Roller compact concrete or Earthen fill.
 - Flood-control only or Multi-purpose.
- **WSDOT evaluating alternatives to protect Interstate 5** – levees, walls, raise, etc.
- **Comprehensive set of recommendations to Governor, Legislature (11/2014).**

Summary of the project

Last Updated: [January 9, 2014](#)

[Click HERE To Return To Main Flood Authority Website](#)

2013-15 Funding -- \$521,000 (09/06/2013).

Description -- The proposed project will design and construct approximately 900 linear feet of dike along the northwest side of the wastewater treatment plant (WWTP) to protect the WWTP from flood events. The top of the dike will have an elevation of approximately 365.00 feet, which is approximately 2 feet higher than the water level reached in the 2007 flood event.

Flood Hazard Reduction Benefits -- The WWTP Dike will reduce the risk of flooding at the Town of Pe Ell's WWTP by creating a barrier to flood waters that is 2 feet higher than the level that water reached in the 2007 flood event. The dike will be constructed in 2014 and will be ready to protect the WWTP in the winter of 2014-15.

Project Status -- **Underway, On-Track**

Pictures

5. Land Use, Floodplain Management

- **Analyze local floodplain management programs across the Basin and, where appropriate, make recommendations to:**
 - protect existing homes/businesses.
 - ensure new development does not increase flood hazard risk.
 - identify ways to reduce flood insurance rates.
 - address properties that are repetitively flood damaged.

LEWIS COUNTY NOTICE TO CONSULTANTS FOR:

Request for Proposals (RFP) Floodplain Management Analysis

Lewis County is seeking a qualified consulting firm or team to provide professional services to complete a floodplain management analysis report for jurisdictions in the Chehalis Basin.

PROJECT DESCRIPTION

Lewis County, Fiscal Agent for the Chehalis River Basin flood Authority, is seeking a qualified consulting firm or team to provide professional services to complete a floodplain management analysis report for jurisdictions in the Chehalis Basin; provide technical assistance to explore potential local and regional cooperative efforts that allow jurisdictions to improve local floodplain management, and work with the local governments in the Basin to develop a strategic approach for buyouts, elevating structures, and other techniques to address repetitive loss properties. The work in this proposal is part of the 2013-2015 Chehalis Basin Strategy, a State of Washington effort to reduce flood damage and enhance aquatic species in the Chehalis River Basin. For more information, view the Ruckelshaus Center's Chehalis Basin project site: <http://ruckelshauscenter.wsu.edu/ChehalisFlooding.html>

Interested consultants shall provide a letter of interest, approach/methodology, budget, personnel resume(s), experience related to this project, and client references.

- **Contract work to be completed by August 31, 2014.**

6. Enhance Salmon (Aquatic Species)

- Collect aquatic species, water quality, hydrologic data.
- Model analyses to understand impacts/benefits on fish, wildlife, water quality, sediment, streamflow and flooding.
- Develop DRAFT and FINAL aquatic species enhancement plan.
- Comprehensive set of recommendations to Governor, Legislature (11/2014).

Seine collections (Chehalis River)

Downstream snorkel surveys (Chehalis River)

7. Early Flood Warning

Chehalis Flooding

Upcoming Policy Workshop
The Chehalis Basin Strategy "Reducing Flood Damage and Enhancing Aquatic Species" Policy Workshop will be held on November 13, 2013 from 8:30am - 4:30pm at the Great Wolf Lodge in Centralia, WA. This workshop is open to the public. For more information, read the [agenda](#).

Project Description
The Chehalis Basin has repeatedly flooded over the past decades. There have been seven major floods in the past 30 years alone. The 2007 flood caused over \$900 million in private and public damages, as well as a major rail line for days. The 2010-11 winter passed Engrossed Substitute House Bill 1091, which required the Office of Financial Management to report to the Governor and Legislature that priority flood hazard mitigation projects in the Chehalis Basin. The Center was asked by the Governor's Office to lead the effort, and to conduct a situation assessment of the relationships between the responsible parties. The report was completed in December 2012.
